

WE COOPERATE WITH FOUNDATIONS

Cooperating with foundations by English companies caused huge changes in ways of collecting second hand clothing since 2007r. Since that moment companies distributes in their area bags with foundation logo and information, what is the aim for which money is going to be spend. People in UK are really eager to give unwanted frequently new or bare new clothing, shoes and household for charity purposes. They are aware that they can help by donating their unwanted clothing.

Because of that method of collecting clothing so called Door to Door collected goods are better quality and contains women, men and children clothing. Beside that you can find perfumes, wallets, jewelry ect. Underneath you can find few examples of foundations that we cooperate with.
